PROFILE

Self-taught WordPress Developer with a professional background in logistics and client-facing operations. Over the past few years, I have focused on learning WordPress and WooCommerce development, building custom themes, plugins, and business-focused functionality using PHP and JavaScript. My projects are self-directed and developed from scratch, giving me hands-on experience with WordPress architecture, WooCommerce customization, and modern development workflows.

I am looking to start my professional career as a WordPress Developer, bringing both technical skills and real-world business experience while continuing to grow through commercial projects and team collaboration.

TECHNICAL SKILLS

WordPress	Custom Theme Development, Custom Post Types & Taxonomies, Hooks & Filters, Template Hierarchy, Customizer API
PHP / JS	OOP PHP, WordPress Coding Standards, Secure Data Handling, Vanilla JavaScript (ES6+), AJAX, Gutenberg Block Development
WooCommerce	Custom Product & Checkout Fields, Order Meta, Checkout Customization, Email Templates, HPOS Compatibility
REST API	Custom Endpoints, Authentication, Data Validation & Sanitization, REST API Integrations,
Dev Tools	Git, GitHub, DDEV, SCSS, npm, PHP_CodeSniffer (WPCS)

PROJECTS

Agency Theme — Custom WordPress Theme *May 2026*

- **Built from scratch:** CPT 'project' + taxonomy 'service_type'; archive, single, taxonomy templates; ACF fields with `esc_html()` / `esc_url()` output
- **Native Gutenberg block 'Project Hero'** with InspectorControls; Customizer section with `get_theme_mod()`; dual nav menus

Smart Lead Manager — WordPress Plugin *May – June 2026*

- **OOP architecture:** Singleton loader (`spl_autoload_register()`); CPT 'agency_lead' with custom admin columns & status filter
- **Secure REST endpoint** — full sanitize/nonce chain; Action Scheduler → `wp_remote_post()` webhook; HTML email notifications via `wp_mail()`

Woo Agency Toolkit — WooCommerce Plugin *June 2026*

- **Custom product & checkout fields** with validation; order meta; WC Admin column; Delivery Note in customer email
- **WooCommerce admin customizations** including product settings, order management, and email extensions
